THE NEWEST SOLUTION FOR MARKETING YOUR BUSINESS

Vitabri by Ins'TenT introduces Air'Lounge, their new customizable inflatable furniture, revolutionizing the way to market your company.

HUNTINGTON BEACH, CA. – February 16, 2016 – Ins'TenT Industries is changing the way businesses market their brand with their inflatable furniture made up of customizable neoprene to display company's logos at any event.

The Air'Lounge is a modern collection of inflatable furniture that mixes comfort with high-end design to bring attention to your brand. The furniture's neoprene material allows high-resolution printing to ensure the most vibrant designs. The material is the strongest in the market so the furniture is ideal for any terrain.

The furniture comes in three different sizes including a single chair, a sofa, and an ottoman that transforms itself into a coffee table. Air'Lounge inflatable furniture is completely lightweight, portable and requires very little maintenance. Their design guarantees a fast set-up as quick as 3 minutes. The removable neoprene cover even allows the Air'Lounge furniture to be easily stored after usage.

###

Located in beautiful Huntington Beach California, Ins'TenT Industries is a family owned business founded in 1997. From our early beginnings in France as Vitabri Canopies with the Pop-Up tent, our main focus was to develop a high-end, one of a kind, quality product that we could be proud of and would reflect our sense of integrity in the market.
