

## Quick N' Fit Booth Instruction Sheet

Please use the x-acto knife provided to make any holes needed for the following items:

**TV mounts**

**Shelves**

**Arch to tower attachments**

### Instructions:

**Step 1.** Assemble all the hardware elements of your booth.

**Step 2.** While setting up your booth, visually identify the threaded holes.

**Step 3.** Put all the printed fabric on the hardware and zip them up at the bottom if there's a zipper.

**Step 4.** Go back to the previously identified threaded pieces and feel for them through the fabric.

**Step 5.** Gently create a small hole in the fabric, by pushing the pointy tip of the X-ACTO knife provided through the fabric until a hole is visible and then proceed with attachments.

Repeat for any other attachments on the booth. Please handle the x-acto knife safely at all times.
